PROFILE SUMMARY

Hello, I'm Malkam Kujur, a dedicated Frontend & UI/UX Developer, as well as a Graphic and Product Designer. I specialize in crafting intuitive and visually compelling digital experiences that not only meet user needs but also exceed expectations. My expertise lies in blending innovative design with seamless functionality to create products that are both beautiful and highly effective. Whether you're seeking to revamp your website, design an engaging user interface, or develop a distinctive brand identity, I'm here to turn your vision into a stunning reality. Let's build something amazing together.

PERSONAL PROJECTS

➤ Front-End Developer Projects:

Portfolio Website
